[1] Be sure that you list the unit you intend to count in for each item. For items that you sell a lot of, it makes sense to count by the case. For items that sell more slowly, individual bottles make more sense.

[2] Add the names of your products.

[3] These prices are manually entered from the prices you paid for these items. These will be listed on your invoices.

[4] This is where you input your physical counts as you count.

[5] Add the names of your products.

[6] Add the names of your products.
